## SUMMARY

A skilled Full-Stack Python Developer with a strong foundation in backend development using Python, Django, and Machine Learning. He has a proven track record of creating various web applications, including fan platforms, content management tools, and AI-powered projects. He possess proficiency in database management, frontend technologies, and Agile methodologies, making him a valuable asset for innovative development teams.

## PROJECTS

### WIZARD WATCH

- Wizard Watch is a free online resource for Harry Potter and Fantastic Beasts fans. It provides access to all the movies, characters, and books related to the popular wizarding world.

### CONTENT CRAFT

- A platform to write and share your Blog Content with the world, offering seamless user authentication for secure access. User can create an account and start posting on it as a personal blog.

### PRIZE BOND CHECKER

- I made a Django Website that lets users check their prize bond wins. It uses a MySQL database and lets people find their Bond and win jackpots.

### FREEFLIX

- I've created a web platform using Django and HTML/CSS that offers free streaming of a wide variety of content. You can find Indian, Hollywood, and anime content, as well as other entertainment options.

### SMARK:LLM

- An advance LLM Powered by Gemini's API, utilizing Machine Learning, API integration, PostgreSQL for Database, Django, HTML, and CSS. It is designed for coding and can write 700 LPC.

### BENWATCH

- BenWatch is a free online platform dedicated to Ben 10. It offers users the opportunity to watch all the series and aliens associated with the popular franchise.

### BLOG API IN REST FRAMEWORK

- API for creating, retrieving, updating, or deleting blog posts, with support for HTTP methods and forms.

## SKILLS

**Back-End:** Python, Django, Django REST Framework (DRF), Amazon Web Services (AWS), Beautiful Soup, Docker, Git

**DataBases:** SQLite, My SQL, PostgreSQL, MongoDB, SQL

**Machine Learning:** Langchain, Pandas, Numpy, Matplotlib

**Front-End:** HTML5, CSS3

## EDUCATION

**Islamia University Bhawalpur | Graduation** (Expected June 2025)

Bachelor in Software Engineering | **CGPA:** 3.80/4.0

## SOFT SKILLS

**Prompt Engineering:** Effective prompts for LLMs, AI chatbots, image generation, and content writing.

**Communication:** Effective at conveying information clearly and listening actively.

**Adaptability:** Flexible and open to change in dynamic environments.

## WORKSTYLE FRAMEWORK

**Agile Methodologies:** Experienced in Agile, leveraging iterative development and flexibility.

**Kanban:** Skilled in Kanban for visualizing and managing workflow effectively.
